Subject: RE: MESSA is state's largest VEBA! (And beware OPEB "VEBA")

I personally think 20 percent is OK, because it changes the employee incentives (and we *do* believe in incentives!)

But a hard cap is OK too.

Our goal is outlaw government collective bargaining in Michigan, which in practical terms means no more MEA.

Do we care who runs the operation? Maybe, for this reason: Our goal is outlaw government collective bargaining in Michigan, which in practical terms means no more MEA.

I'm reminded of our calls to eliminate ISDs (and Ruth's work to expose them): The legislature keeps giving them more things to do, making it ever more difficult to abolish them.

Email exchange between Mackinac Center staffers and House Education Committee Chair Tom McMillin
